

Harbor

Exterior Solar Screen

A substantial cassette system with larger and sturdier roll-tube, the Harbor is perfect for projects requiring widths that exceed 20' as well as longer drop-lengths on thicker fabrics.

Corradi USA

With the advantage of larger screen sizes, some solar screen fabrics with longer drops may require a horizontal seam.

HARBOR Exterior Solar Screen

Harbor is modeled after the industry's superior shading system, the Summit, and is exclusively manufactured and sold by Corradi USA. The base model is manual gear operated with detachable click-on crank, no side tracks, and a heavy duty bottom rail. The headbox has a curved front. Upgrade track options include the ShyZip® Spring fabric retention system or stainless steel cable guides for both manual or motorized. The manual option includes a detachable click-on crank with an inconspicuous foldable handle. The detachable crank can be used on a manual shade up to the manual maximum length of 16' wide. Motor configurations include a wired switch controlled motor or wireless remote controlled motor. Corradi offers the latest motors from Somfy® and other name brands. Any shade more than 16' wide must be motorized. Also, the wireless options can be used with a sun & wind sensor to automatically operate under specific conditions.

**Please note Harbor does not use mounting brackets.*
